

Galvanized steel tree grate h140223

Galvanized steel tree grate with triangular notches. Composed of two halves to be assembled. Dimensions: W.100 x D.100 x H.3 cm. Weight: 45 Kg.

Grate for the protection of trees and plants entirely made of **galvanized steel sheet** thickness 60/10 with triangular notches arranged in concentric circles obtained by laser technology cutting. The grate consists of two halves prepared for fixing to each other with screws. The counter frame is made of galvanized steel angle section equipped with brackets for fixing to the ground using anchor bolts and expansion plugs.

The painting technique used for the galvanized steel structure is **thermosetting powder** with oven baking, providing greater longevity to the product while the finish gives the product an **excellent decorative and protective effect**.

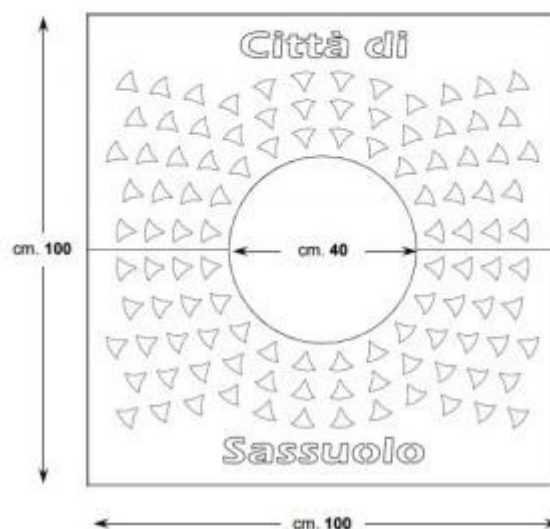

Technical features:

- Material: galvanized steel
- Color: gunmetal grey
- Height: 3 cm
- Width: 100 cm
- Depth: 100 cm
- Hole diameter: 40 cm
- Weight: 45 Kg
- Composed of two halves to be assembled
- Fixing: to be bolted

Upon request, it is possible to customize the grate with the desired wording.
