

Tree grate h140224

Plant-saving tree grate made of galvanized steel with brackets for ground fixing. Composed of two halves to be assembled. Dimensions: W.100 x D.100 x H.3 cm. Weight: 40 Kg.

Tree and plant protection grate made entirely of **galvanized steel sheet** with leaf-shaped cutouts created by laser technology. The grate consists of two halves, prepared for joining together with screws. The tree grate is equipped with brackets for ground fixing using anchor bolts and expansion plugs.

The painting technique used for the galvanized steel structure is **thermosetting powder** coating with oven baking, which provides greater longevity to the product while the finish gives the product an **excellent decorative and protective effect**.

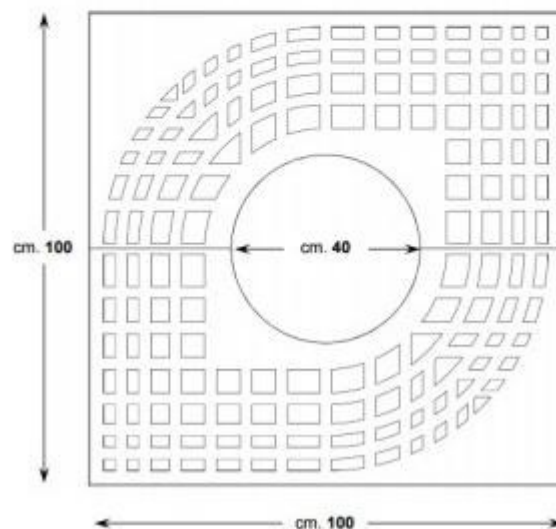

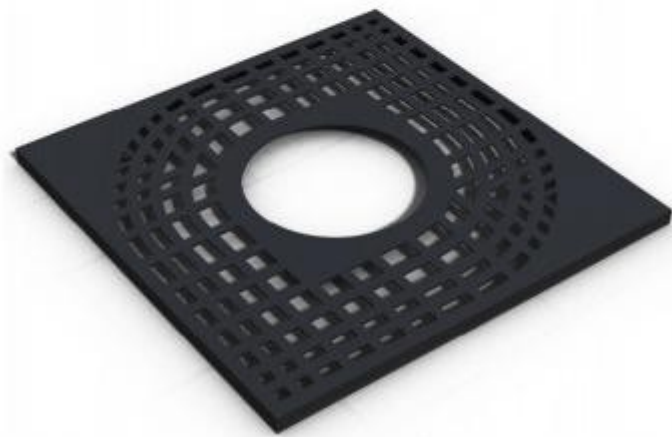

Technical characteristics:

- Material: galvanized steel
- Color: gunmetal
- Height: 3 cm
- Width: 100 cm
- Depth: 100 cm
- Hole diameter: 40 cm
- Weight: 40 Kg
- Composed of two halves to be assembled
- Fixing: to be bolted down
