

Gynaecological couch fixed height h904_41

Gynaecological couch h904_41 in metal with eco-leather upholstery. Fixed height, perforated headrest and leg supports included for specialist examinations.

The **h904_41** gynaecological couch is a fixed station designed for medical practices and specialist clinics requiring a solid and durable support base. The metal structure ensures maximum structural stability during clinical maneuvers, eliminating wobbling or mechanical failure. Ergonomics is guaranteed by the combination of high-density soft foam padding and a configuration designed for easy access.
