

## Gynecological chair h602\_14

Electric gynecological chair in antimicrobial steel, 180 kg capacity. Structure with ABS casing and low-voltage actuator for clinical use.

Designed for use in the obstetric and gynecological field, this professional chair meets the ergonomics and safety requirements necessary during specialist visits. The movement system rests on a **high-quality steel** structure, treated with epoxy painting with antimicrobial properties, essential for maintaining high hygienic standards in a healthcare environment. Operational stability is guaranteed by a fixed base protected by an ABS casing, which facilitates cleaning operations and protects mechanical components.

## Technical features

- **Frame material:** high-resistance steel with antimicrobial painting
- **Lifting system:** 1 low-voltage electric actuator
- **Load capacity:** 180 kg
- **Power supply:** 230 V - 50 Hz
- **Base protection:** full ABS casing
- **Configuration:** available in different color variants

### Available options:

- Disposable paper roll holder
- Anatomic leg supports
- Height-adjustable headrest
- Specific support for colposcope
