

Gynecological chair with adjustable height h930_78

Electric gynecological chair in steel with 3 actuators. Adjustable height 65-98 cm, Trendelenburg and stainless steel basin. Ideal for specialist clinics.

The **gynecological chair H930_78** represents an advanced solution for diagnostics and outpatient surgery, designed to optimize the workflow in healthcare centers and specialist medical practices. Thanks to a fully electric movement system, the structure allows the patient's positioning to be managed with extreme fluidity, while ensuring high comfort during the examination and ideal operational ergonomics for the doctor.

The **powder-coated steel** frame ensures excellent structural stability, while the synthetic leather upholstery is designed to withstand daily wear and frequent sanitization procedures. The management of the chair is entrusted to **3 independent electric actuators**, coordinated by a single manual remote control that allows height, backrest inclination, and seat position to be adjusted without any physical effort for the operator.

Technical features

- **Structure:** Steel frame with white powder coating.
- **Movement system:** 3 electric actuators controlled by manual remote control.
- **Height adjustment:** Electric range from 65 to 98 cm.
- **Backrest adjustment:** Electric inclination from 0° to 75°.
- **Seat adjustment:** Trendelenburg (0°–20°) and anti-Trendelenburg (0°–15°) with electric management.
