

Gynecological chair with feet h930_77

Electric gynecological chair in steel and imitation leather, height 53-83 cm. Includes Trendelenburg, stainless steel basin, and leg rests for outpatient visits.

The **H930_77 gynecological chair** represents a specialized solution for outfitting **outpatient clinics, health centers, and medical offices** requiring a versatile station for diagnostic procedures and gynecological examinations. The structure is designed around a high-stability **steel lifting column**, powder-coated in white to ensure mechanical resistance and ease of sanitization in clinical settings.

Seat ergonomics are optimized by a mixed adjustment system: the height is managed electronically via **hand-held remote control**, allowing the operator to vary the work surface from 53 to 83 cm without interrupting the procedure. Patient comfort and positioning precision are ensured by independent **gas springs** that control the backrest and seat tilt, allowing for rapid reaching of **Trendelenburg (20°)** and **Reverse Trendelenburg (30°)** positions.

Technical characteristics

- **Structure:** Powder-coated steel frame with stable lifting column
- **Height adjustment:** Electric with remote control, range 53 – 83 cm
