

Gynecological examination chair h602_07

Electric gynecological chair in painted steel and fire-retardant sky, 3 independent actuators, 230 kg load capacity and Medical Device certification.

The **gynecological examination chair** represents a technologically advanced solution for specialist practices and hospital departments requiring ergonomic precision and structural reliability. Designed with a high-resistance **painted steel** frame, it integrates a low-voltage movement system managed by **three independent electric actuators**, which allow for smooth adjustment of height, backrest inclination up to 180°, and leg section.

The **fire-retardant sky** upholstery has been selected to ensure high resistance to wear and common hospital disinfectants, while ensuring maximum comfort for the patient during diagnostic procedures. The base is equipped with a kit of four wheels featuring a foot brake, facilitating repositioning within the outpatient environment.

Technical features

- **Structure:** Powder-coated steel
- **Movement:** 3 electric actuators (lifting, backrest, leg section)
- **Backrest inclination:** Adjustable up to 180°
- **Upholstery:** High-resistance fire-retardant sky
- **Load capacity:** Maximum capacity 230 kg
- **Height range:** From 51 cm (minimum) to 91 cm (maximum)
- **Mobility:** 4 wheels with foot locking system
- **Certification:** Class I Medical Device

Available options:

- Height-adjustable headrest
- Articulated thigh supports
