

## Gynecological examination chair h602\_15

Specialist chair for gynecology and urology in steel with 2 electric actuators, 180 kg load capacity and ABS protection casing. This **gynecological and urological chair** is designed to offer maximum precision and comfort during diagnostic and outpatient procedures. Thanks to the management via **two independent low-voltage electric actuators**, the operator can easily adjust both the height of the surface and the inclination of the backrest, ensuring ergonomic patient positioning. The structure is made of **high-quality steel**, ensuring stability and durability over time, while the fixed base is protected by an ABS casing that facilitates cleaning operations and protects internal components.

## Technical specifications

- **Movement:** 2 electric actuators for backrest and lifting
- **Structure:** High-resistance steel
- **Base:** Fixed with ABS protection casing
- **Maximum capacity:** 180 kg
- **Power supply:** 230 V - 50 Hz
- **Customization:** Available in different color variants

### Available options:

- Disposable paper roll holder
- Anatomical leg support
- Height-adjustable headrest
- Dedicated colposcope support
