

Gynecological examination chair h602_16

Electric gynecological and urological chair in steel with 3 actuators. Backrest and leg rest adjustment, load capacity 180 kg, base with ABS casing.

This **professional multifunctional chair** is specifically designed to meet the clinical needs of gynecology and urology departments. The movement system is based on **three low-voltage electric actuators** that allow independent management of lifting, backrest, and leg rests, ensuring maximum ergonomics for both the patient and the healthcare staff during diagnostic procedures. The structure features a fixed base protected by an ABS casing that shields the internal mechanisms, facilitating sanitization operations.

Technical features

- **Frame material:** high-quality high-strength steel
- **Movement system:** 3 independent electric actuators for height, backrest, and leg rests
- **Load capacity:** 180 kg
- **Power supply:** 230 V - 50 Hz
- **Protection:** shock-proof ABS base cover casing
- **Customization:** upholstery available in different color variants

Optional extras available:

- Disposable paper roll holder
- Pair of anatomical leg supports
- Height-adjustable headrest
- Dedicated colposcope support
