

Gynecological examination couch with wheels h582_168

Gynecological examination couch available in various colors. Adjustable height: from 52 to 92 cm.

The 3-section couch is ideal for medical practices, particularly for gynecological ones. The product features a **white painted tubular steel structure** and is divided into 3 independent sections, with height and backrest electrically adjustable thanks to electric actuators with remote control. The leg section is instead manually adjustable from 0° to 90° via gas spring.

The padding is made of polyurethane covered in washable and self-extinguishing faux leather. The couch is also equipped with **anatomical PU leg holders**, adjustable in height and with a removable stainless steel liquid collection tray.

At the base there are **4 swivelling wheels** that can be activated via lateral feet.

Technical features:

- White painted tubular steel structure
