

## Gynecology chair h528\_23

Gynecological examination couch in steel and imitation leather, 115x58 cm. Manual pedal elevation, Trendelenburg position and integrated step.

The **h528\_23** gynecological examination couch is a professional solution designed for medical offices, clinics, and hospital departments requiring precision and operational reliability. The structure features a **manual elevation system for the pelvic section** assisted by gas springs, easily operated via a pedal positioned under the folding step. Flexibility of use is guaranteed by the backrest adjustment (up to +63°) and the ability to quickly set the **35° Trendelenburg position**, ensuring optimal conditions for every type of diagnostic examination.

Stability is ensured by leveling feet at the base, while patient comfort is provided by 67 mm padding covered in **shockproof and scratch-resistant imitation leather**, optimized for frequent cleaning cycles. The standard equipment is extremely rich, including surgical rails, colposcope supports, and a stainless steel liquid collection tray, making the device immediately operational in specialist contexts.

## Technical features

- **Total dimensions:** Length 115 cm, Width 58 cm
- **Seat height:** 83 cm in horizontal position
- **Pelvic adjustment:** Manually elevatable via pedal from 83 to 114 cm
