

Shelf in stainless steel 4 smooth shelves 90x40xh180 cm h11120

Shelf with 4 smooth shelves. Made entirely in Italy. The basic element in the hook. Stainless steel structure.

Modular shelf with structure in AISI 304 stainless steel hook. The stainless steel AISI 304 is a type of austenitic stainless steel, the result of a particular mixture of carbon, chromium and nickel. It is characterized by:

- excellent resistance to corrosion
- ease of cleaning
- good hygienic coefficient
- ease of processing
- resistance

The body of the shelf is formed by uprights "U" of the dimensions of 40x25x40 and a thickness of 20/10 mm, a solid and resistant.

Easy to assemble thanks to the mounting hook on to punch holes. Shelves are smooth and have a thickness of 8.10. Stability is

further ensured by the transverse reinforcement and the plastic feet, which are useful to avoid damaging the surfaces.

Specifications:

- Italian product
- made of stainless steel AISI 304
- basic element to hook
- 4 smooth shelves thickness 8.10
- complete transverse reinforcement
- plastic feet
- anti-cut edges
- glossy finish
- height 180 cm
- width 90 cm
- depth 40 cm
