

Shelf in stainless steel 4 smooth shelves 100x40xh180 cm h11121

Shelves in stainless steel with 4 smooth shelves. Made entirely in Italy. Basic element Hook

Modular shelf in AISI 304 stainless steel frame with a hook. The material with which it is realized, the 'AISI 304 stainless steel, is a steel formed by a specific combination of nickel, chromium and carbon. It 'a material characterized by:

- excellent resistance to corrosion
- ease of cleaning
- good hygienic coefficient
- ease of processing
- resistance

The basic element of the shelf is constituted by uprights "U" of the dimensions of 40x25x40. The thickness of the same is instead of 20/10.

It assembles easily thanks to the hook system of the slots by the punch, while the shelves are smooth and have a thickness of

8/10. Stability is further ensured by the transverse reinforcement and the plastic feet, which are essential to avoid damaging the surfaces. These characteristics mean that the shelf is perfect for warehouses and supermarkets.

Specifications:

- Italian product
- made of stainless steel AISI 304
- basic element to hook
- 4 smooth shelves thickness 8.10
- complete transverse reinforcement
- plastic feet
- anti-cut edges
- glossy finish
- height 180 cm
- width 100 cm
- depth 40 cm
