

Shelf in stainless steel 4 smooth shelves 180x40xh180 cm h11127

Shelf 4 shelves with smooth base element hook. Italian product.

Shelf 4 smooth shelves entirely produced in Italy with high quality materials. The shelf is in fact made of AISI 304 stainless steel, a special type of stainless steel formed by a special mixture of chromium, carbon and nickel.

The basic element is a hook with the bearing structure on the upright "U" in 40x25x40 mm of thickness 20/10.

The assembly is very fast thanks to the hook system of the slots by the punch.

The shelves are 4 and are smooth with a thickness of 8/10. The shelving is provided with transverse reinforcement for greater stability and rubber feet, which avoid the damage of the bearing surfaces.

Safety is also guaranteed by the anti-cut edges.

Specifications:

- Italian product
- modular shelf
- material: stainless steel AISI 304
- 4 smooth shelves - thickness 8.10
- basic element to hook
- glossy finish
- complete transverse reinforcement
- rubber feet
- height 180 cm
- width 180 cm
- depth 40 cm
