

Shelf with 4 shelves slotted 200x40xh180 cm h11152

Shelves 4 slotted shelves made of stainless steel AISI 304 Italian production.

Shelving with bolt structure made entirely of AISI 304 stainless steel, a type of high quality steel characterized by a specific combination of 18% chromium and 8% nickel. From its composition is derived the name stainless steel 18/8.

It is usually used for the construction of hoods, sinks, cutlery and professional equipment in general, thanks to:

- ease of washing
- resistance

- lifespan
- ease of processing
- good hygienic coefficient

The basic element of the rack is bolted to the supporting structure of struts angled 35x35 in 15/10 with 9x32 slot for the mounting bolts. The shelves are slotted in thickness 8.10. The column has a 'height of 180 cm and a thickness of 15/10.

The package includes bolts and plastic feet.

Specifications:

- Italian product
- stainless steel AISI 304
- basic element in bolt
- 4 shelves slotted 9x32
- complete with bolts
- plastic feet
- anti-cut edges
- glossy finish
- height 200 cm
- width 180 cm
