

Rectangular padded bath seat without backrest h13613

Rectangular unpadded seat without backrest made of molded plastic. Removable pads made of expanded polyurethane foam for maximum comfort.

Rectangular grey padded bath seat without backrest.

The seat is made of molded plastic with drainage holes to reduce the stagnation of water and to facilitate the cleaning. The pads are made of expanded polyurethane foam with closed cells to ensure maximum comfort. Moreover, the padding is removable for easy cleaning.

The legs are covered with a rubber stopper to prevent slipping and accidental damage to the surface of the shower area.

Two stainless steel mounting brackets with four mounting holes allow optimal adhesion to the wall.

The legs of the seat are adjustable depending on the users needs. Furthermore it is possible to adjust the angle of the tilting arm.

Technical features:

- Seat height: 52.6 cm
- Seat width: 65.8 cm
- Seat depth: 39.9 cm
- Depth of seat folded: 15.7 cm
- Maximum load: 253 kg

Tested to verify that the seat fulfills the requirements of BS EN 12182: 1999 and BS EN 12272:2000 16.2 "Technical aids for disabled persons-general characteristics and test methods".
