

Foam raised toiletseat with eco-leather upholstery h13650

Padded eco-leather upholstered raised toiletseat. Applicable to standard toilet by Velcro straps.

A valid way to feel completely at ease while in the toilet is using a soft raised toiletseat. Disabled, elderly and those who suffer from mobility difficulties will find the raised toilet seat essential.

The raised toilet seat is made of strong materials, but its use is elementary: you only have to place the gadget on your toilet by fastening a couple of straps. The soft seat decreases vertical pressure on the ischial tuberosities and sacrum zone and chances of skin irritation and formation of pressure sores are enormously reduced by the eco-leather upholstery. The ergonomic structure and its softness allow the user to keep a correct posture and complete stability while comfortably visiting the toilet.

Specifications:

- 1 Height: 5 cm
- 2 Height: 10 cm
- 1 Weight: 0.34 kg
