

Lamppost with three lights with opal polycarbonate diffuser h16896

Lamppost with three lights with diffuser spherical

Outdoor lamp post with three lights made of aluminum, a material that makes it highly resistant to weathering. The diffusers have a spherical shape and are produced in opal polycarbonate, a opal material highly resistant and weather resistant and impact resistant. The lights are turned upwards.

The type of connection for the three bulb is E27, the lamp diameter is 27 mm.

The lamp has a degree of protection IP44. IP is a code that summarizes the level of protection of electrical equipment against accidental or intentional contact with the object and water, so important especially when you have to create a plant outdoors. It is important that the entire apparatus electrical / optical of our product is adequately protected from the elements (dust, flies, rain, humidity, etc.) in order to maintain the operation in time. At the end of the fixed IP followed by two digits, the first digit indicates the protection against access of solid bodies, the value of 4 indicates that the equipment is protected against solid bodies larger than 1 mm. The second digit indicates the protection against access of liquids. The value 4 indicates that the device is protected from splashes.

The lamp is Class 1 insulation, the insulation class is a value that indicates the degree of protection from the risk of electric shock due to a fault. Appliances with protection class 1 are those in which in addition to basic insulation is a further protection from the connection, with the classic yellow-green electric cable, with the grounding system of the electrical installation of the building.

Features:

- height 255 cm
- Class 1
- type of connection for the bulb E27
- degree of protection IP44
- voltage 230v 50hz
- wide 105 cm
- diameter single lamp 30 cm
- three lights

INFORMATION

- **Width** 105 cm
- **Material** aluminum
