

Covers for above ground pools polypropylene 3.95 x 2.15 mt h17423

Universal coverage of rectangular shape for above-ground pools in polypropylene fabric. Product made in Italy

Cover made of woven polypropylene, very light material, waterproof, elastic and resistant to dirt and abrasion.

The cover protects the pool from the fall of insects, leaves and dust and allows to keep the water temperature avoiding it cools during the night hours. Being waterproof prevents water evaporate due to the excessive heat in the middle of the day and prevents the pool water from coming into contact with rain.

Folding easily thanks to the presence of an elastic band or holes in the board.

Suitable for above-ground pools of rectangular shape with maximum dimensions of 3.95 x 2.15 meters.
