

Cover for above-ground pools in polypropylene oval 4.90 x 3.70 mt h17433

Cover in polypropylene fabric for above-ground pools oval. Product made in Italy.

Universal coverage for above-ground pools oval (4,90x3,70 mt) in polypropylene fabric with elastic closure or through eyelets on the board.

The use of cover during the summer allows you to retain the heat of the water during the night and to limit evaporation during the hottest hours of the day.

The cover is made of a lightweight polypropylene, resistant to 'wear and weathering for this reason it is also suitable to the use during the winter.

If used regularly maintains the pool cleaner and allows to decrease the consumption of the substances necessary for the cleaning and to reduce the filtering time
