

## Cover for above-ground pools oval woven polypropylene 7.60 x 4.60 mt h17434

Universal coverage for above-ground pools oval in polypropylene fabric. Italian product.

Universal coverage for above-ground pools oval-shaped with maximum dimensions of 7,60x4,60 mt.

The pool covers are an essential element for the owners of these structures because not only keep the water temperature constant even avoiding evaporation, but prevent the contamination of the pool by insects, leaves and dust.

The cover is made of polypropylene fiber in a waterproof material very resistant to 'wear and weatherability for this reason it is also suitable for use in winter.

The closure is simple thanks to the presence of an elastic or eyelets along the edge.
