

## Isothermal floating cover for round pool diameter 4,50 m h17455

Isotherm cover for pools floating universal circular shape with maximum dimensions of 4.50 mt. Italian product.

Floating cover for pools of circular shape with maximum dimensions of 4.50 mt. The cover is isothermal then keeps the heat that water has accumulated during the hottest hours of the day avoiding it cool during the cooler hours of the night, and at the same time prevents the evaporation thus decreasing the refilling of water.

By covering the pool is kept clean by preventing leaves, insects and dust from falling into the water.

The roof rests on the water with the bubbles facing the water.

Specifications:

- for circular pools
