

Solar-heated shower 25 l h17460

25 liter solar-heated shower complete with hot and cold mixer tap, hose, shower head. Italian production.

Ideal for a refreshing shower after a hot summer day! simple to install and easy to use. The water heats up quickly using the sun's rays. This solar shower allows considerable energy savings, since it only uses the sun's rays to heat the water.

It easily connects to the water supply because of a pump connected to a normal water faucet. The shower has reached a maximum temperature of 60 ° C and the temperature can be easily adjusted by the knob.

* The wooden platform is not included
