

Supporting roll holder in steel h2033

Roll holder support in AISI 304 stainless steel or lacquered steel with white epoxy

Supporting roll holder for industrial rolls made of steel. It can be moved easily and can adapt to any environment. The robustness and the particular shape of the serrated blades make the paper cuts quickly and easily.

Specifications:

- height 81 cm
- width 48 cm
- depth 45 cm
- serrated blades for easy cutting paper
- resistant
- material: AISI 304 stainless steel or food-grade lacquered with white epoxy
- using rolls Ø350
