

Toaster oven 6 slices with quartz resistances h2325

Toaster oven multifunction cooking, roasts and grilled foods over time. Italian Products.

Ideal for baking, roasting and grilling any food. The model has capacity for 6 people and has a strong-timer from 15 minutes and a manual mode, handy for the disengagement of the operator when available.

The machine is also equipped with three switches for the selection of heating elements (resistances), which can be switched on or off when necessary. The heating elements are quartz, to speed up the heating.

The structure and the grills are stainless steel, special steel alloy highly resistant to impact, acids, heat and environmental stress. It does not rust and is hygienic and easy to maintain.
