

Mini-bar energy saving compressor 40 liters h3441

Minibar built-in compressor with glass door 33 the energy class A + + +. Equipped with LED light indicator, opening the door and engine cover

Compressor minibars useful both for use in hotels and for office use. This mini combines high-tech with an attractive look. Differently from the classic mini-bar, this product is characterized by a new system of cooling gas of natural origin, low power consumption and a new compressor, all accompanied with a great noise.

And it is the compressor of the new generation, only the refrigerant gas, which allow you to achieve dramatic savings and energy class A +++.

Specifications:
