

Umbrella stand in stainless steel h9752

An umbrella modern contemporary fruit of pure Italian design.

This umbrella is a stainless steel wire which takes place from tronconico head, shaped like an arrow into the night.

The water flows along the profile up to the base in solid d 'steel, dug in the ground as a puddle.

Few signs to represent an event, isolating it in the dilated time of its manifestation. A stainless material for stabilizing the construction quality and aesthetic object.

The umbrella stand is in fact made ??of stainless steel, a material that will not rust, and that for this reason, is well suited for use at home. This home has increased its susceptibility thanks to its other interesting features. The stainless steel differs from common:

- robustness
- solidity
- durability
- hygiene
- ease of maintenance
- stress resistance and heat
