Half-moon foam obstacle h999_22

Half-moon psychomotricity obstacle in PU foam and antibacterial PVC. Dimensions 100x60x30 cm. Modular with velcro for safe paths 18-36 months.

The **half-moon foam obstacle** represents a fundamental component for the design of **psychomotor paths** intended for early childhood. Designed specifically for children aged between **18 months and 3 years**, this module facilitates the development of coordination and balance through the overcoming of soft obstacles. The semi-curved structure allows operators to create variable configurations, integrating perfectly into nurseries and kindergartens.

Technical specifications

- **Internal material:** polyurethane foam with density 25 kg/m³
- **Covering:** antibacterial, bite-resistant and non-toxic polyester PVC
- **Dimensions:** 100 x 60 x h. 30 cm
- **Joining system:** velcro strips for stable modular fastening
- **Safety:** EN71-3 certified and compliant with REACH regulations
- **Company certifications:** ISO 9001:2015 and ISO 14001:2015
- **Maintenance:** surface washable with neutral detergents
