

Half-moon table with melamine top h848_27

Half-moon table h848_27 in 25 mm thick melamine and Ø 40 mm tubular frame. Side-by-side compatible, for preschool classrooms. Dimensions: 120 x 105 x H 53 cm.

The **Half-moon table with melamine top h848_27** is a school furniture element designed for setting up classrooms and educational environments dedicated to early childhood. This table solves the operational need to create flexible and safe work configurations, allowing both individual use and the combination of multiple modules to set up entire classrooms. The structure reduces the risks of accidental impact thanks to the design of the half-moon top with rounded corners. Aimed at preschools, nursery schools, playrooms, and educational centers, the furniture consists of a 25 mm thick melamine top and a tubular structure with a diameter of 40 mm. The table measures 120 x 105 cm with a height from the ground of 53 cm and a net weight of 27.50 kg. The structure is available in GC Light Gray and ME Metallic colors, while the top is supplied in the AV Ivory variant, with the possibility of requesting different colors for the top upon request.
