

Hand wash basin with pedal system h509_158

Wall-mounted sink in black painted stainless steel, pedal activation. Ideal for small spaces. Dimensions: W 35 x D 30 x H 21.5 cm.

The **wall-mounted hand wash basin with pedal system H509_158** is a compact, elegant, and highly hygienic solution designed for professional environments such as **designer kitchens, beauty centers, SPAs, and Horeca laboratories**, where frequent hand washing is an absolute priority. This model is designed for **wall installation**, ideal for those looking for a discreet, accessible, and space-saving product.

Made of **stainless steel** with a **matte black finish**, it combines **durability and aesthetic refinement**. The activation system via **pedal (can also be used with the knee or thigh)** ensures hygienic use, avoiding any direct manual contact and improving the management of contamination risk, fully in line with **HACCP** standards.

It is compatible with both **hot and cold water**, but can also be connected only to a cold or mixed water source, thanks to the **included non-return valve**. The **sink is equipped with an overflow** and comes complete with **spout, pedal button, and internal connections**, ready for quick installation. The only component not included is the **wall connection valve**.

The modern and minimalist design fits perfectly into contexts where the image of the premises is an integral part of the experience. Thanks to its compact dimensions (350 x 300 x 215 mm), it is particularly suitable for **small spaces**, while maintaining excellent **ergonomics for hand washing**.

Bring hygiene, elegance, and functionality to your business with this **wall-mounted hand wash basin H509_158**. Buy now or request a personalized quote for multiple supplies!

- **Compatible:** with HACCP protocols.
- **Supplied:** ready for installation (except wall valve).

FAQ:

1. **Is it suitable for small spaces?**

Yes, the compact dimensions (35 x 30 x 21.5 cm) make it ideal for environments where every centimeter counts.

2. **How is the water activated?**

Via a pedal control that can also be pressed with the knee or thigh, avoiding manual contact.

3. **Do I need to buy other accessories for mounting?**

No, all components are included except for the wall connection valve, which must be purchased separately.

4. **Is it compatible with hot and cold water?**

Yes, it can be connected to both or just to cold water or a mixed system via the provided non-return valve.

5. **How should the matte black surface be cleaned?**

It is recommended to use soft cloths and neutral detergents. Avoid abrasives, sharp objects, and scouring pads. Always rinse with fresh water.

Mini buying guide:

If you are looking for a **hygienic, compact hand wash basin with a modern design**, a **wall-mounted** solution is ideal for environments where space is limited.

The **pedal or knee** activation guarantees maximum hygiene, avoiding any contact with hands. The **matte black finish** is perfect for premises with a contemporary style, but requires delicate maintenance.

Always check that the chosen model has **components already included** and is compatible with your systems (cold/hot/mixed water).

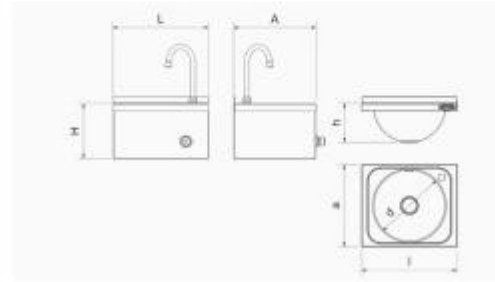

If you are looking for an HACCP-friendly solution, this product is perfect.
