

Heavy-duty platform trolley h492_14

Stainless steel crate trolley with 30° ergonomic handle and 5 containment tubes. Load capacity 500 kg, ideal for heavy and hygienic loads.

The **crate trolley** is a professional piece of equipment designed to assist in the handling of heavy and bulky loads, with a particular focus on load stability and ease of maneuver. Made with a **round stainless steel tube frame** and a welded platform, it ensures superior structural strength and high hygienic standards, fundamental in sectors requiring frequent sanitization operations. The **ergonomic push handle**, angled at 30°, together with the **5 welded vertical containment tubes**, prevents crates from slipping during transport, ensuring operator safety and the integrity of the goods.

Technical features

- **Total capacity:** 500 kg
- **Total dimensions:** L. 970 x W. 500 x h. 944 mm
- **Weight:** approx. 23.2 kg
- **Platform:** smooth welded
- **Platform height from ground:** 270 mm
- **Useful platform dimensions:** 850 x 500 mm
- **Material:** Stainless steel
- **Structure:** Round tubular Ø 25 mm
- **Handling system:** 4 wheels Ø 200 mm (2 fixed and 2 swivel with parking brake)
- **Safety:** 5 vertical containment tubes and reinforcing crossbars on the wheel plates
