

Heavy-duty service trolley h09_265

AISI 304 stainless steel service trolley with 2 shelves (100x50 cm), reinforced tubular structure and multi-directional wheels for heavy loads.

The **h09_265** service trolley is a professional solution designed for heavy-duty transport in environments requiring high hygienic and structural standards. Made entirely of **AISI 304 stainless steel**, the trolley combines a 25 mm round tubular supporting structure with high-thickness shelves, guaranteeing stability and corrosion resistance even in intensive operational contexts.

The two shelves, pressed into a tray shape with a satin finish, are equipped with **rounded edges** to prevent injuries and facilitate cleaning operations. A distinctive feature is the **shelf soundproofing system**, which drastically reduces noise pollution when moving dishes or metal equipment.

Technical features

- **Material:** High-thickness AISI 304 stainless steel
- **Structure:** Round tubular $\varnothing$ 25 mm
- **Configuration:** 2 soundproofed tray shelves
- **Shelf dimensions:** 1000 x 500 mm
- **Safety:** Perimeter bumpers in soft rubber
- **Movement:** 4 multi-directional wheels $\varnothing$ 125 mm
- **Total dimensions:** 110 x 60 x h.100 cm
