

## Heavy-duty transport service trolley h22\_200

Professional AISI 304 stainless steel service trolley with 2 tray shelves. 300 kg capacity, swivel wheels, and high-strength welded structure.

The h22\_200 service trolley is designed to meet the intensive needs of hotel facilities, collective catering, and cooking centers. Its fully welded structure ensures superior stability compared to assembly-kit models, making it the ideal tool for moving heavy loads such as stacks of plates, cutlery, and kitchen equipment. The use of noble materials ensures prolonged resistance to corrosion and ease of daily sanitization operations.

## Technical features

- **Material:** AISI 304 stainless steel square tube (section 2.5x2.55 cm).
- **Loading surfaces:** 2 tray shelves (100x58 cm), welded directly to the frame for maximum rigidity.
- **Safety:** Shelf edges with anti-cut processing for operator protection.
- **Handling:** 4 swivel wheels with a diameter of 12.5 cm, 2 of which are equipped with a pedal braking system.
- **Capacity:** Dynamic load capacity up to 300 kg.
- **Total dimensions:** L108 x D61 x H93 cm.
- **Accessories:** Integrated ergonomic push handles and non-marking grey rubber corner bumpers.
