

Height-adjustable examination bed h559_13

Examination bed for clinics with height adjustment via electric system. Dimensions: W190 x D60 x H48/95 cm

Medical examination bed with white painted metal frame. **Height adjustable from 48 to 95 cm**, via electric foot control. The structure also includes a convenient **roll holder**. The upper part is complete with a **surface covered in fire-retardant imitation leather fabric** and with **high-density padding**. The base is equipped with **adjustable feet** and **the headrest is reclinable** via gas spring. The bed is very **practical and easy to assemble**, plus the height adjustment does not involve any movement of the structure, making the product adaptable even in environments with limited space. The handset is not included.
