

Height-adjustable instrument table h576_30

Surgical instrument table in AISI 304 stainless steel, hydraulic foot pedal adjustment and removable 1200x550 mm tray with antistatic wheels.

The **instrument table** is a professional solution designed specifically for integration in **operating rooms** and sterile environments. The structure, made entirely of **18/10 AISI 304 stainless steel**, guarantees high resistance to corrosion and deep sanitation, essential requirements in the surgical field. The elevation system is managed by a **precision hydraulic pump** with a sealed circuit, operated via foot pedal, which allows the height to be adjusted without the use of hands, preserving the operator's sterility.

Technical features

- **Material:** 18/10 AISI 304 stainless steel
- **Worktop dimensions:** L. 1200 x D. 550 x h. 30 mm
- **Overall dimensions:** L. 1200 x D. 580 x h. from 910 to 1270 mm
- **Height adjustment:** Single-movement hydraulic system with foot pedal activation
- **Worktop:** Recessed, removable for easy cleaning
- **Base:** 4-spoke with safety tips
- **Wheels:** 4 twin wheels (Ø 75 mm) in non-marking polymer, 2 with brake and 2 antistatic
- **Maximum load:** 30 kg evenly distributed
