

Hemodialysis scale chair h634_63

Scale chair for clinical treatments with integrated weighing system. Capacity: 200 kg. Available in various colors.

Dialysis scale chair, ideal for the prevention and control of cross-infections. The product is composed of an **anti-tip frame painted with thermosetting epoxy powders** enriched with antibacterial. The surface is divided into 3 sections: backrest, seat and legs and is equipped with two separate cushions for backrest and seat/legs. **The upholstery is available in a wide range of colors** and allows for effective and functional sanitization. The product is characterized by simultaneous and independent movement of the backrest and leg sections via 2 motors, armrests linked to the backrest movement, removable, with rotation function, tiltable up/down, folding to 90°. **A perimeter handset equipped with a 3.5 m coiled cable allows you to manage all movements.**

The weighing system allows the weight to be read via a digital LCD indicator with a 180° viewing angle, easily visible from over 20 m.

Technical characteristics:
