

High-capacity hand truck h55_137

Professional electro-welded steel hand truck, 250 kg capacity, Ø 200 mm solid rubber wheels and 40x16 cm wide toe plate for bulky loads.

The **high-capacity hand truck h55_137** is a logistics solution designed for handling crates, packages, and bulky items. Thanks to the combination of a **straight back** and an **oversized loading plate**, the device ensures stability and robustness in both industrial and domestic contexts, supporting heavy loads up to **250 kg**.

The structure is made of **electro-welded tubulars and plate**, finished with an acrylic powder coating in **RAL2004 orange** for high visibility and wear resistance. The rolling system relies on two **Ø 200 mm solid rubber wheels** with stamped and zinc-chromated steel sheet hubs, designed to operate effectively on irregular or industrial surfaces such as stoneware, asphalt, concrete, and resin.

Technical features

- **Structure:** Electro-welded steel tubulars and plate
- **Surface treatment:** Anti-rust acrylic powder coating
- **Total dimensions:** W 56 x D 45 x H 110 cm
- **Loading plate dimensions:** 40 x 16 cm
- **Unladen weight:** 10 kg
- **Maximum capacity:** 250 kg
- **Wheel type:** 2 solid rubber wheels Ø 200 mm with black ring
- **Rubber hardness:** 82±4 Sh.A
- **Hubs:** In stamped, zinc-chromated, and riveted steel sheet
- **Handle:** Ergonomic with non-toxic rubber grips
- **Color:** Orange RAL2004
- **Compliance:** CE regulations
- **Supply condition:** Assembled and ready for use
