

Horizontal baby changing station for public restrooms h4045

Wall-mounted baby changing station with retractable opening/closing mechanism. Color: white. Certified: EN 12221.

The **horizontal baby changing station h4045** is a technical furnishing solution with an essential design, conceived to integrate nursery services in high-traffic public contexts such as motorway service areas, shopping centers, and restaurants. Made of **high-quality polypropylene**, this model addresses hygiene and practicality needs thanks to the surface treatment with the **Biocote® antimicrobial additive**, which actively reduces the presence of bacteria and mold. The structure is equipped with a retractable opening and closing mechanism with reinforced hinges, ensuring a constant fluidity of movement over time. With a large changing surface of 1900 cm² and nylon safety straps, the changing station offers a safe and comfortable environment for the newborn, while maintaining an ultra-compact profile when closed.

Technical characteristics

- **Material:** High-resistance polypropylene
- **Hygienic treatment:** Integrated Biocote® antimicrobial additive
- **Configuration:** Horizontal with wall mounting
- **Safety:** Nylon safety straps and reinforced hinges
- **Accessories:** Two integrated bag hooks
- **Changing surface:** Approximately 1900 cm²
- **Dimensions:** 86 x 48 x 10 (depth when closed) cm
- **Weight:** Approximately 10 kg
- **Certifications:** Complies with European standard EN 12221
- **Color:** Neutral white
