

Horizontal galvanized sheet metal tank h12748

Horizontal cylindrical tank for drinking water. Dimensions: W. 750 x D. 1720 x h. 850 mm. In galvanized sheet metal.

The **galvanized sheet metal storage tank** is a container intended for the **storage of drinking water** at atmospheric pressure, ideal for the industrial sector. **Horizontal cylindrical**, it is made of sheet metal with hot-dip galvanizing treatments, suitable for drinking water according to the standard D.M. n. 174 of 06.04.04. The structure is complete with a **Ø 240 mm manhole**, **connections and vent**.

Technical features:

- Dimensions: W. 750 x D. 1720 x h. 850 mm
- Nominal capacity: 750 lt
- Weight: 48 kg
- In hot-dip galvanized sheet metal
- For drinking water storage
- Cylindrical structure
- Type: horizontal
- Ø manhole: 240 mm
- 1" connections
- 1" vent
