Yes, it is equipped with a structure with posts in galvanized and powder-coated steel with decorative sphere, a material resistant to atmospheric agents.
2. **What are the dimensions of the notice board?**
Its dimensions are W 176.5 x D 6 x H 250 cm.

3. **What are the main contexts of use?**

It is ideal for public parks, schools, tourist areas, public buildings, and information paths.

4. **Is it available in other colors or finishes?**

The product is supplied in aluminum finish.

5. **Is the display horizontal or vertical?**

This model is horizontal.

Mini buying guide:

When choosing an outdoor notice board, consider the **durability of materials**: galvanized steel is perfect for ensuring **corrosion resistance, lightness, and long life without the need for maintenance**.

The **horizontal format** is particularly suitable for wide-ranging graphic or textual content, such as maps, itineraries, or public notices.

Ensure that the notice board integrates well with the urban context in which it will be placed.

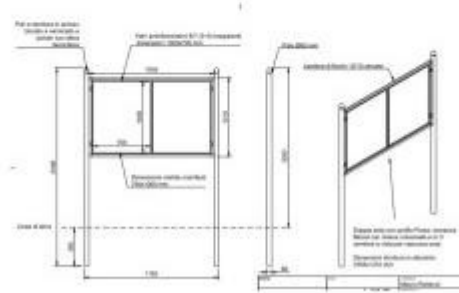

The H1003_10 notice board perfectly meets these needs.

Horizontal steel outdoor notice board, urban furniture display H1003_10, lightweight weather-resistant notice board, outdoor public communication notice board, galvanized steel information panel with outdoor glass doors.
