

Horizontal wall-mounted baby changing station for public bathrooms h4046

Horizontal wall-mounted baby changing station with hideaway opening/closing mechanism. Dimensions: W.860 x D.100 x H.480 mm.

The **h4046 horizontal wall-mounted changing station** represents technical excellence for the furnishing of restrooms in hotels, public facilities, and prestigious offices. This model combines the strength of **polypropylene** with the refined aesthetics of **satin stainless steel**, offering a durable solution that is easy to integrate architecturally. The structure resolves installation criticalities thanks to a **monoblock galvanized steel frame**, which guarantees absolute stability and quick installation. To ensure the highest level of hygiene, the changing surface is treated with the **Biocote® antimicrobial additive**, which actively inhibits the proliferation of bacteria. Equipped with a smooth hideaway mechanism and nylon safety straps, the changing station offers a large changing area of 1900 cm², maintaining an ultra-slim profile of only 10 cm when closed.

Technical features

- **Material:** Satin stainless steel and polypropylene
- **Internal frame:** Monoblock in galvanized steel (high stability)
- **Hygienic treatment:** Surface with Biocote® antimicrobial additive
- **Mechanism:** Hideaway opening/closing with reinforced hinges
