Horizontal wall-mounted baby changing station h660_17

Horizontal wall-mounted baby changing station in high-density polyethylene with stainless steel articulated arm, folding opening, pneumatic closing system and adjustable safety straps. Ideal for public and private bathrooms.

The horizontal polyethylene baby changing station represents the functional and hygienic solution for public and private bathrooms where the care of small children requires a dedicated, stable, and easy-to-maintain space. In high-traffic environments, where hygiene is a priority, this product guarantees a support surface compliant with health standards with long-lasting antibacterial protection.

The structure is made of **highly resistant high-density polyethylene** with an **antibacterial concave shape** and is fixed to the wall via a **hidden stainless steel articulated arm**. The space-saving mounting with book-style opening allows for use only when necessary. The system is equipped with a **pneumatic shock-absorbing mechanism** that ensures smooth and controlled opening and closing, reducing the risk of sudden movements. The **easily adjustable safety straps** keep the child in a safe position, preventing fall risks during use. An **integrated cavity** allows for storing clean towels directly on the product.

Technical features

- Material: high-density polyethylene
- Antibacterial concave shape
- Durable antibacterial protection
- Space-saving wall mounting with book-style opening
- Fixing via stainless steel articulated arm
- Pneumatic shock absorption system
- Adjustable safety straps
- Integrated cavity for storing clean towels
- Plastic screw-cover caps
- Dimensions: H 390 x W 870 x D 445 mm
- Load capacity: 113 kg
- Weight: 6.380 kg
- Color: light gray
- Fixing materials included

Image purely indicative

INFORMATION

- **Width in millimeters** 870.000000
- **Depth in millimeters** 445.000000
- **Height in millimeters** 390.000000
- **Tipologia fasciatoi** Orizzontale
- **Material** materiale plastico
