

Hospital bedside table for nursing homes and care homes h13_322

ABS plastic bedside table with drawer, door, shelves and hook. Dimensions: length 48 cm x width 48 cm x height 76 cm
h13_322

The **bedside table** is designed for healthcare environments such as **nursing homes, care homes and hospital wards**, where it is essential to combine **functionality, hygiene and durability**. Made of **pure injection-molded ABS plastic**, it is a **non-toxic**, **rust-proof** and **anti-corrosion** product, designed to withstand intensive daily use.

ABS, in addition to guaranteeing durability over time, is extremely **easy to clean**, ensuring **maximum hygiene** in environments where frequent sanitization is essential. The **molded top surface** prevents items from accidentally falling, improving safety for patients and staff.

The bedside table is equipped with a **pull-out drawer**, a **front-opening door**, **two spacious internal shelves**, a **retractable shelf** and an **ABS side towel hook**, which is also durable and easy to sanitize. These elements make the bedside table extremely **versatile** and suitable for every organizational need next to the patient's bed.

Buy the bedside table now for your healthcare facility! Ideal for nursing homes, care homes and hospital wards. Contact us for bulk supplies.
