

Hospital bedside table with built-in overbed table h960_09

Hospital bedside table with built-in overbed table. Made with HPL panels, aluminum columns and metal structure.

The **h960_09 hospital bedside table** is a multifunctional medical device designed for advanced hospital furnishing. The structure combines a metal base painted with electrostatic powders with **aluminum columns** and **HPL** (High Pressure Laminate) surfaces for the front panels and top shelf. This model solves the need for space and practicality thanks to the **built-in folding overbed table**, easily removable and positionable on both sides. Equipped with drawers with removable ABS containers and telescopic slides, it ensures hygiene and fluid use in intensive healthcare contexts.

Technical characteristics

- **Bedside table dimensions:** W 59 cm x D 44.5 cm x H 86 cm.
- **Overbed table dimensions:** Width 40 cm x Length 58 cm.
- **Materials:** HPL panels, aluminum columns, metal structure, ABS drawers.
- **Overbed table height:** Adjustable from a minimum of 84 cm to a maximum of 112 cm.
- **Mobility:** 360° swivelling wheels with centralized brake system.
- **Components:** Storage divider compartment, raised aluminum edges on the overbed table.
- **Finish:** Metal parts painted with electrostatic powders.
