

Hospital dressing trolley with 4 drawers h930_59

Multi-purpose hospital trolley with 4 drawers, braking wheels and steel trays. Dimensions: W 97 x D 54 x H 101 cm.

The **hospital dressing trolley H930_59** is a professional tool designed to facilitate the daily work of doctors and nurses in hospital wards, clinics, and nursing homes (RSA). Thanks to its solid structure and intelligent configuration, this multi-purpose trolley allows to **store, organize and transport** safely all the materials and equipment necessary for the patient's dressing.

The **structure is made of PVC-coated chipboard panels**, with drawer fronts in MDF also PVC-coated, which guarantee **resistance to wear and ease of sanitization**. The **upper and lower trays** are made of **scratch-resistant epoxy powder-coated steel**, an extremely resistant material suitable for continuous use in healthcare environments.

The trolley is equipped with **four drawers, two with a height of 6.5 cm and two of 12.5 cm**, perfect for holding both small instruments and more bulky material. Each drawer is **lined internally with non-slip mats**, which help keep objects in place even during movement. The two upper drawers are equipped with a **key lock**, to safely store medications or medical devices.

The H930_59 trolley is installed on a **steel base with 4 wheels of 10 cm**, all equipped with **brakes**, which guarantee **maneuverability, stability and safety** during transport even in narrow aisles or on irregular floors.

A **rail system** is integrated on the side of the trolley, allowing the installation of **additional accessories** on one of the four available rails, making it a **modular and customizable** device according to the staff's operational needs.

Optimize your department's efficiency with a professional, safe and versatile trolley. Buy the **H930_59 trolley** now or request a quote for multiple supplies!

FAQ:

1. **What color are the drawers?**
The drawers are dark orange.
2. **Is it possible to add side accessories?**
Yes, the trolley has 4 side rails for mounting optional accessories.
3. **Can the drawers be locked?**
The two upper drawers are equipped with a key lock for maximum safety.
4. **Is it easy to transport in hospital corridors?**
Yes, the 10 cm swiveling wheels with brakes offer maneuverability and stability.
5. **Is it also suitable for nursing homes or private clinics?**
Certainly, it is ideal for public and private healthcare facilities with organization and mobility needs.

Mini buying guide:

When choosing a dressing trolley, it is important to evaluate some essential characteristics. First of all, check that the **structure is robust**, easy to sanitize and suitable for intensive use.

The **presence of wheels with brakes** is fundamental to guarantee safety during movement. Evaluate the **number and size of drawers** according to the type of material to be stored.

Accessory compatibility and modularity are a plus: systems like **side rails** allow the addition of containers, baskets or supports for devices.

Finally, also consider the **presence of locks** if it is necessary to store medical devices or medications with restricted access.
