

Hospital IV drip stand h582_132

Professional stainless steel infusion stand, adjustable from 135 to 240 cm via crank handle. 5-spoke base on wheels and 4 hooks (40 kg total capacity).

The **infusion stand** represents a professional and robust solution for supporting infusion bags and bottles within hospitals, clinics, and outpatient centers. Entirely made of **stainless steel**, the structure guarantees optimal resistance to corrosion and ease of sanitization essential in healthcare environments. The height adjustment system via **mechanical crank handle** allows the operator to position loads with extreme precision, reducing physical effort and ensuring maximum stability of the telescopic column.

Technical characteristics

- **Material:** High-resistance stainless steel
- **Height range:** Adjustable from 135 to 240 cm
- **Adjustment system:** Crank handle mechanism
- **Tubular diameter:** Telescopic section 25 / 21 mm
- **Supports:** 4 upper stainless steel hooks
- **Load capacity:** Maximum capacity 40 kg (10 kg per single hook)
- **Base:** 5-spoke stainless steel structure with swivel wheels
