Hospital laundry trolley h315_29

Stainless steel laundry trolley with single bag holder, pedal opening and soft-close lid. Compact dimensions for hospital wards.

The **single bag holder laundry trolley** is a professional device designed to optimize the collection of dirty linens within hospitals, clinics, and care facilities. The **stainless steel structure** ensures superior resistance to corrosion and frequent chemical sanitization cycles required by healthcare environments. Thanks to the **pedal opening system**, the operator can manage textile waste without any manual contact with surfaces, ensuring the highest standards of preventive hygiene.

Technical features

- **Dimensions:** approx. W54.4 x D44 x h95 cm
- **Frame material:** high-resistance stainless steel
- **Opening system:** polypropylene pedal with total or partial option
- **Closing system:** soft-close and silent mechanism
- **Lid:** made of standard white polypropylene
- **Mobility:** 4 swivel wheels, 80 mm diameter

- **Protections:** scratch-resistant rubber corner bumpers

Available options:

- Lids in different colors for ward coding or type of laundry (on request).
