Hospital laundry trolley h919_14

Multifunctional stainless steel laundry trolley (116x55x94 cm). Structure with lid for simultaneous management of dirty and clean laundry.

The **hospital laundry trolley** represents an integrated logistical solution for the efficiency of workflows within healthcare facilities, clinics, and nursing homes. The dual-function configuration allows operators to perform the collection of contaminated textiles and the simultaneous distribution of clean linens to patient beds in a single trip, optimizing operating times and reducing routes within wards.

The structure is entirely made of **stainless steel**, the material of choice in the medical field for its intrinsic resistance to corrosion and its ability to withstand frequent deep disinfection cycles with aggressive chemical agents.

Technical features

- **Material:** High-quality stainless steel
- **Configuration:** Equipped with a top lid for content isolation
- **Functionality:** Dedicated compartments for dirty and clean laundry
- **External dimensions:** W. 116 x D. 55 x H. 94 cm
- **Operating weight:** Approximately 19.6 kg
- **Mobility:** High-smoothness wheels for quiet transit
