Hospital laundry trolley h967_03

Hospital laundry trolley in stainless steel with 3 polypropylene shelves and 2 x 77L bags. Dimensions 147x56x106 cm, anti-corrosion structure.

The **h967_03 laundry trolley** is a mobile unit designed for the optimization of clean laundry logistic flows within **hospitals, clinics, and assisted living facilities**. The choice of **stainless steel** for the frame ensures high mechanical resistance and total protection against corrosion, fundamental requirements for environments subject to intensive sanitization protocols.

The configuration includes **three high-density polypropylene shelves**, a material selected for its chemical inertness and ease of decontamination. The lateral collection system, consisting of **two 77-liter washable plasticized bags**, allows for the integration of accessories or subsidiary materials, maintaining a clear separation between different load volumes.

Technical specifications

- **Supporting frame:** High-resistance stainless steel
- **Support surfaces:** 3 polypropylene shelves (useful surface 50 x 86 cm)
- **Lateral capacity:** 2 plasticized 77-liter bags, removable and washable
- **Handling system:** 4 x 360° swivel wheels, 125 mm diameter, with thread guard
- **Operational safety:** 2 wheels equipped with foot brake and perimeter bumpers on every corner
- **Total dimensions:** 147 x 56 x 106 (h) cm
- **Clearance between shelves:** 70 cm distance between the lower and upper shelf
