

Hospital medical equipment cart h448_106

Multipurpose hospital cart in steel and aluminum. Bottom shelf in ABS. Dimensions: W.65 x D.56 x H.94 cm.

The multi-purpose hospital cart with 3 drawers is particularly suitable for emergency rooms and medical practices where electromedical devices are frequently used.

The product features a steel and aluminum structure with epoxy coating and an ABS top with a flange on three sides on which it is possible to place ultrasound scanners and other devices. Thanks to the **three self-closing drawers** with telescopic slides, it is also possible to store medication instruments.

In the lower part, there is also an ABS shelf that allows the transport of accessories and other medical items.

The multi-purpose hospital cart can be transported with extreme ease thanks to the Ø100 mm swivelling wheels and the side handle.

It is possible to receive the product by choosing from different finishes for the drawers and side details.

Technical features:
